National Intelligence Council

5 November 1986

MEMORANDUM FOR: DIA/VP

SUBJECT: Possible Additions to DIA Production Plan

1. Attached for your review are abstracts of five papers up to now carried on the NIC Production Plan that you may wish to consider as possible additions to a future edition of the DIA production plan. While these important topics are of great interest to the NIC, we find that they are not as well-suited and/or urgently required as National Estimates as other alternatives, and thus have been deferred.

2. I again wish to state my appreciation for DIA's active support of the National Estimates program, and I solicit any suggestions from you or your officers to strengthen it--to include any new topics which we should be considering for the next edition of the NIC Production Plan.

Very respectfully,

FRANK B. HORTON III
Brigadier General, USAF
Chairman
